

To whom it may concern,

I would like to offer an unqualified recommendation for the services offered by JHM & Associates.

We contracted with John Miller twice in 2005. In the first contract, John conducted a feasibility study for a building addition our school was considering. The study was thorough and informative. Our second contract engaged John's leadership in a full-fledged capital campaign for the same project. To date, with John's assistance, we have raised over \$1,000,000 and are well on our way to hitting our target goals.

You may be interested to know that I checked John's references before we brought him on-board. Every one of the references (12, I believe) spoke well of John's professionalism and his ability to bring focused experience to the task. In addition, the references I spoke with commended John for his character and commitment. In my work with John over the last year, I genuinely concur with this assessment. John is an honest and straightforward man. He brings the experience and skills needed for success. I would not hesitate to work with him again.
