REV. LUCY E. JONES, Pastor

To Whom It May Concern:

The Reservoir United Methodist Church benefited greatly from John Miller's consultation. John was able to work with us quickly and efficiently to help us set our goals and not only realize them but surpass them.

Working with a small, active church, he engaged the leaders personally, provided training that encouraged and empowered the teams, and exhibited positive, contagious energy that kept us on track to move through the campaign.

Because this church had never done anything like this before, we were keen on the use of a feasibility study before going ahead with the campaign. Although a separate undertaking, it led us into the process and gave folks the opportunity to start thinking about their commitment to the building project which has been discussed for more than two years.

I am sure that we would not have had such wonderful results to our campaign without the work of JHM & Associates. I wholehearted recommend John's team to my ecclesial colleagues who are considering a capital campaign.

Sincerely,

Lucy E. Jones
