Mechanicsburg, PA 17055

Dear John,

Our church engaged your company to assist us in a fund raising campaign this past March that has proven to be very successful. After reviewing our annual pledge results and history of our stewardship, we agree that a goal of \$600,000 to be raised over a short seven week timeframe would be a challenge, but possible. I'm pleased to report to you that we have exceeded that goal with pledges over \$720,000, with a couple of responses still out.

This letter is written to you to share the good news, and also to state how pleased we are with your leadership and helpfulness in assisting us before and during the campaign. Not knowing you before our selection, we asked several of your recent clients for their opinion of your work, and everyone that we contacted was pleased with your ability to judge the results and to lay out a successful game plan.

To accomplish our results, it was apparent that having a plan of outreach to others in addition to our building a Fellowship Hall and Praise Chapel was a big part of our success. We chose the theme of "BEYOND THESE WALLS", which portrayed our plans to enhance our social justice programs by using 25% of our results to help programs outside of our church. This decision was very important as we visited our church members for their gifts.

We are pleased with your professional handling of so many items and your promptness in communications, in addition to a great job in training our visitation teams.

I would be pleased to respond to potential clients of your company should references or questions be raised that we could assist in. Again, we are so thankful for your work.

God bless,

  
Elwyn V. Harp, Co-chair  
Celebration Campaign
